INVESTMENT PHILOSOPHY	OBJECTIVES	PORTFOLIO CONSTRUCTION	INVESTMENT RISKS
To prudently invest in outstanding infrastructure and utilities companies at attractive prices that exhibit highly predictable cashflows.	To achieve attractive risk-adjusted returns over the medium to long term; while reducing the risk of permanent capital loss.	Relatively concentrated portfolio of typically 20 to 40 investments. Typical cash and cash equivalents exposure between 0 - 20%.	All investments carry risk. While it is not possible to identify every risk relevant to an investment in the fund, we have provided details of risks in the Product Disclosure Statement. You can view the PDS for the fund on Magellan's website <a href="http://www.magellangroup.com.au">www.magellangroup.com.au</a> .

## MARKET CAPTURE<sup>3</sup>

<sup>1</sup> Transaction costs may also apply – refer to the Product Disclosure Statement. All fees are inclusive of the net effect of GST.

<sup>2</sup> Calculations are based on exit price with distributions reinvested, after ongoing fees and expenses but excluding individual tax, member fees and entry fees (if applicable). Returns denoted in AUD.

<sup>3</sup> Market Capture is calculated after fees measured against the monthly return of the MSCI World Net Total Return Index (A\$ Hedged). Up market capture shows how the fund performed relative to the index while the market is rising. Down market capture shows how the fund performed relative to the index while the market is falling. All MSCI data used is the property of MSCI. No use or distribution without written consent. Data provided "as is" without any warranties. MSCI and its affiliates assume no liability for or in connection with the data. Please see complete disclaimer in [www.magellangroup.com.au/funds/benchmark-information/](http://www.magellangroup.com.au/funds/benchmark-information/).

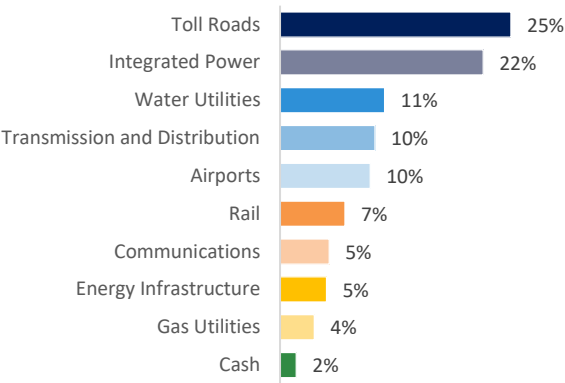

<sup>\*</sup> Outperformance consistency indicates the percentage of positive excess returns for rolling 3 year returns since inception.

<sup>\*</sup> S&P Global Infrastructure Index A\$ Hedged Net Total Return spliced with UBS Developed Infrastructure and Utilities Index A\$ Hedged Net Total Return prior to 1 January 2015. Note: as the UBS Developed Infrastructure and Utilities Index A\$ Hedged Net Total Return ceased to be published from 31 May 2015, it was replaced by Magellan on 1 January 2015 with the S&P Global Infrastructure Index A\$ Hedged Net Total Return.

MONTHLY SUMMARY

The portfolio recorded a negative return in August.

The largest detractors over the month were Transurban, Norfolk Southern and Eversource Energy. Australian toll road operator Transurban traded down on rising Australian bond yields as well as slightly weaker-than-expected traffic in one of its key markets. US-based rail company Norfolk Southern fell as US bond yields jumped and as they reduced full-year revenue expectations at their H1 result in late July on a slower-than-expected recovery in volumes post the derailment as well as declining fuel surcharges and storage revenue. US utility Eversource Energy was affected not only by rising US bond yields but also by its partner in its offshore wind projects taking an impairment on those projects.

There were no contributors in the month.

*Stock contributors/detractors are based in local currency terms unless stated otherwise.*

<sup>4</sup> Sectors are internally defined. Geographical exposures are by domicile of listing. Exposures may not sum to 100% due to rounding.

<sup>5</sup> Shows how much the stock has contributed to the fund’s gross return for the period in AUD. Excludes non-disclosed positions established in the latest quarter.
