PORTFOLIO MANAGER	ELISA DI MARCO	ARSN 645 515 082	APIR MGE381AU	AS AT 31 AUGUST 2024
INVESTMENT PHILOSOPHY	OBJECTIVES	PORTFOLIO CONSTRUCTION		INVESTMENT RISKS
To invest in outstanding companies and seek attractive risk-adjusted returns by utilising Magellan's long standing investment process to identify quality companies.	The Fund's primary investment objective is to achieve attractive risk-adjusted returns over the medium to long term through investment in a diversified portfolio of high quality companies.	An actively managed, research driven and competitively priced portfolio of 70-90 of the world's highest quality businesses. The Fund leverages Magellan's DNA, that is Magellan's proprietary definition of quality, ESG framework, investment process and investment team. Typical cash and cash equivalents exposure between 0-5%.		All investments carry risk. While it is not possible to identify every risk relevant to an investment in the Fund, we have provided details of risks in the Product Disclosure Statement. You can view the PDS for the Fund on Magellan's website www.magellangroup.com.au .

WHY QUALITY?

We aim to invest in companies that have sustained competitive advantages, which permits the company to generate returns on capital in excess of its cost of capital for a sustained period of time ("quality"). Companies with these attributes may reduce the risk of permanent capital loss. Active fundamental research and continuous monitoring are key to our determination of whether or not a company is 'quality'. We consider quality companies are more likely to withstand market cycles, and compound returns for investors.
