ARSN 645 514 110

APIR MGE8722AU

AS AT 31 MAY 2024

Fund Features

- A portfolio of high-quality securities that is actively constructed and rebalanced quarterly
- Integrated quality framework to identify companies with sustained competitive advantages, and with a forward-looking view to the evolution in technology, consumer behaviour and other fundamental impacts to businesses
- Rebalanced quarterly, and continuously monitored, to ensure relevant and updated views on ESG, quality and risk
- Investors can buy or sell units on the Cboe securities exchange like any other listed security or apply and redeem directly with the Responsible Entity

ESG Philosophy and integration

- Integrated proprietary ESG risk assessment process and low carbon framework
- The fund excludes companies whose activities in our view may have wide-ranging detrimental impacts on society for example tobacco production, controversial weapons and mining of coal[^]
- Companies are reviewed and scored for the materiality of their exposure to environmental, social and governance factors. The assessment is a direct input into portfolio management
- Exposure to industry exclusions is assessed by reference to the total (gross) revenue⁺ of the company provided by MSCI ESG Manager
- We overlay our proprietary low carbon framework to deliver a portfolio with meaningfully lower carbon intensity than broader equity markets^{**}
